

Digital Certificates for WSET Levels 1 and 2

All certificates and badges/pins for Level 1 and Level 2 qualifications are in digital format, via the platform [Accredible](#). In order to receive your certificate and badge, you will be required to register for an account with WSET via this link: <https://www.wsetglobal.com/registration/>

You will be asked for the following information: title, first name, last name(s), preferred name (if different from 'first name + last name'), email address, date of birth, and password. Please note you must use the same email address you used to register with Wine Courses Barcelona when booking the course.

When we receive the grade list for your exam, we will send you your exam result and, in the case of successful candidates, a link to access and download your certificate and badge. WSET will automatically send a reminder to any candidates who have not accessed their certificates 5 days after results have been issued. Please note that Wine Courses Barcelona cannot access or receive certificates on behalf of students.

FAQ's

- What are digital certificates?

A digital certificate is an online version of a traditional paper certificate that a candidate receives after they achieve a qualification. Candidates are sent a unique certificate webpage, which can easily be shared on social media, or to potential employers.

- Who are Accredible?

They are a world leading digital certificate platform provider, and WSET's partners for digital certificate delivery. [Click](#) for more information about Accredible.

- What are digital badges?

Digital badges accompany all digital certificates. They can be embedded into email signatures and once clicked they will enable direct access to a candidate's digital certificate.

- How can digital badges be embedded into an email signature?

[Click](#) for more information about embedding badges into email signatures.

- Are digital certificates secure?

Yes. Unlike easily-editable print or PDF certificates, digital certificates are more secure. [Click](#) for more information about how Accredible ensures that data is securely protected.

- Can digital certificates be printed?

Yes. A PDF can be downloaded and then printed by the candidate from their certificate webpage. There is also an option to download a 'Print Quality PDF' that can be sent to professional print companies. [Click](#) for more information
